

DRYWALL SCREWS TWINFAST THREAD

SIZE	SCREW	THREADS	STEEL	TENSION	AVERAGE TORSIONAL
DIAMETER	DIAMETER	PER INCH	GAUGE	PULLOUT (LBS)	STRENGTH (LBS)
#6			25 0.019"	165	34
	0.138	6-20	20 0.033"	358	
#7			25 0.019"	160	39
	0.151	7-19	20 0.033"	372	
#8			25 0.019"	184	47
	0.164	8-18	20 0.033"	402	
#10		10-16	25 0.019"	194	75
	0.19	10-24	20 0.033"	413	

- Known as a multi-purpose screw used in a variety of applications.
- Coarse thread , for drywall to wood stud and attaching fixtures to other material.
- Fine thread, for drywall to 20-25 gauge metal stud.
- Yellow zinc plating used for aesthetics and in low corrosion resistant applications. Salt spray rating is 90 hours.
- Recommended drive speed of 2,500 RPMS.
